

BORGO CONVENTI

BORGO CONVENTI

Founded in 1975 in Farra d'Isonzo, in the province of Gorizia, Borgo Conventi owes its name to the many monasteries that were in the area since ancient times.

Borgo Conventi, with vineyards in the best areas and a winery equipped with the most modern equipment, stood immediately as one of the most prestigious wineries in Friuli, a region famous for its white wines with a distinct aroma.

Today, with over 40 hectares of vineyards, Borgo Conventi produces red and white wines under the names Collio and Isonzo. These wines are obtained both from native grapes – such as Friulano, Ribolla Gialla, Refosco dal Peduncolo Rosso – and major international grape varieties such as Sauvignon, Pinot Grigio, Chardonnay and Merlot – which have found in this area an original and highly seductive interpretation.

Moreover, we also have 2 Cru wines – made from single vineyards located in areas of particular prestige – which were born with the aim of exploring the most of the great potential of the Collio grape.

Borgo Conventi, Collio, Isonzo. An inseparable trinity of quality, tradition and passion.

WELCOME IN  
FRIULI

# BORGO CONVENTI ISONZO

I FIORI DEL BORGO
